🌐 Portfolio: <https://jeeva-mportfolio.netlify.app>

Profile

Entry-level **React Developer** with a strong foundation in JavaScript and modern frontend technologies. Passionate about building responsive, user-centric web applications using React and its ecosystem. Experienced in using React hooks for state management and creating clean, reusable UI components. Eager to contribute to real-world projects and grow as a frontend engineer.

SKILLS

Frontend Technologies: React js, JavaScript, HTML5, CSS3, Tailwind CSS

Tools & Version Control: GitHub, VS Code ,Postman

PROJECTS

Coffeeman

🔗 <https://coffeeman.netlify.app>

Tech Stack: React.js, Tailwind CSS, MongoDB, Express js

- Developed Coffeeman, a responsive e-commerce web application showcasing coffee, tea, and cool drink products using React.js and Tailwind CSS.
 - Implemented user authentication (register & login) with Express.js and MongoDB Atlas, ensuring secure data handling.
 - Deployed backend services on Vercel and frontend on Netlify, achieving seamless integration and reliable performance.
 - Designed a clean, mobile-first UI with optimized components, enhancing user experience across devices.
-

Suvai Express

🔗 <https://suvaexpress.netlify.app>

Tech Stack: React.js, Tailwind CSS, React Router DOM, useReducer, useContext

- Built a mobile-responsive food ordering web app focused on traditional Tamil cuisine.
 - Implemented routing using React Router DOM to navigate between menu, cart, and checkout pages.
 - Managed global cart state efficiently using useReducer and useContext hooks.
 - Styled the application using Tailwind CSS, creating a clean and user-friendly interface.
 - Gained practical experience in building component-based architecture and managing application state.
-

Anime List Web App

 <https://animelist-project.netlify.app>

Tech Stack: React.js, CSS

- Developed a responsive web app to display anime data using a third-party API.
- Implemented dynamic search functionality based on user input.
- Designed a clean and responsive layout for smooth usage across devices.
- Focused on writing modular and reusable components using React Hooks

EDUCATION

Bachelor of Commerce in Computer Application

Government Arts and Science College Modakkurichi, Erode.

 2021 – 2024

Class XII

TAMM Government Higher Secondary School, Nathakkadaiyur.

 2021

Class X

TAMM Government Higher Secondary School, Nathakkadaiyur.

 2019
